

Peer Nagar

SRE · Cloud Infrastructure · DevOps Engineer

Israel · pearnagar@gmail.com · linkedin.com/in/peer-nagar · github.com/pearnagar · pearnagar.github.io

Profile

SRE and cloud-focused engineer with 3 years of hands-on production experience across CI/CD, automation, observability, Linux infrastructure and security. Strong mathematical background, comfortable moving between infrastructure, code, data and customer-facing delivery.

Core stack

Linux · Python · Bash · PowerShell ·
Ansible · Jenkins · Docker · Kubernetes ·
Helm · AWS · Azure · Prometheus ·
Grafana · SQL · PostgreSQL

EXPERIENCE

SRE & Professional Services Engineer — Cyberbit

Oct 2022 – Oct 2025

- Owned product delivery, weekly updates and hotfix deployments through automated CI/CD workflows.
- Built operational automation and Jenkins jobs with Ansible, Python, Bash and PowerShell for reporting, monitoring and installation workflows.
- Configured Prometheus alerts and Grafana dashboards and developed custom exporters for system metrics.
- Developed and optimized SQL queries for reporting, monitoring and dashboard integrations.
- Administered and optimized VMware vSphere hosting environments.

Information Security Manager — IDF

Jan 2020 – Aug 2022

- Supervised security for classified networks and supported secure operational environments.
- Worked with digital certificates and web technologies, including HTML, CSS, JavaScript and SharePoint.
- Contributed to a security-services web project that received formal recognition.

SELECTED PROJECTS

CS2 Analytics Engine

Kubernetes · Helm · FastAPI · PostgreSQL · Prometheus · Grafana

End-to-end analytics platform with a Kubernetes CronJob scraper, API, monitoring stack, health/readiness probes and CI security scanning.

Acme SaaS Platform

Next.js · TypeScript · PostgreSQL · Stripe · Loki · Docker

Production-style SaaS monorepo with verified/idempotent webhooks, structured logging and a local Grafana/Loki observability pipeline.

EPL Moneyball AI

Python · Pandas · XGBoost · Scikit-learn

ML pipeline trained on 17K+ historical matches with rolling form, time-decay weighting and live odds integration; ~54.08% unseen-test accuracy.

EDUCATION & CERTIFICATIONS

B.Sc. Applied Mathematics

Bar-Ilan University · 2023–2025

Microsoft Azure

AZ-104 · Azure Administrator

AZ-900 · Azure Fundamentals
